AR4STE(Λ)M

Press release N.4 December 2021

Innovative STE(A)M laboratories are on!

Now, that the Online Teacher Training Programme is finalized, partners are organizing workshops in different schools across the partner countries with a view to actively engage both teachers and students in activities that put AR4STEAM into action!

In fact, different initiatives related to STE(A)M subjects and based on innovative AR technologies are organized in Germany, Turkey, Netherlands, Belgium and Italy. The key idea behind the design and implementation of those initiatives is to combine motivational workflows based on Game-Based Learning strategies with immersive technologies that enhance the learning experience.

The AR4STEAM labs are still ongoing utilizing different AR applications and covering different aspects of STEAM: From *Mathematics* to *Astronomy*!

DIPF, SAMANDIRA, ITT Marco Polo and AEDE have already organized and implemented their labs involving at least 4 teachers and 4 students. The results were filmed, and the videos will be soon uploaded in our project [website](#)!

Stay tuned!

Have you heard about the AR4STEAM National Workshops?

Partners have been organizing and executing national workshops in hybrid, face-to-face or online format under the scope of presenting the project results and invite even more participants to be actively involved.

School teachers, students, stakeholders, public authorities, domain experts, research institutes, policy makers and other interested parties were invited with a view to get exposed to the AR4STEAM strategies and disseminate the outcomes among their networks. The workshops held so far are:

Cyprus organized by HEARTHANDS SOLUTIONS: 22.09.2021

Germany organized by DIPF: 30.09.2021

Turkey organized by SAMANDIRA: 27.10.2021

Italy organized by ITT Marco Polo with the support of Effebi: 28.10.2021

AR4STEAM Project – what's next?

The last, but not least AR4STEAM lab will be held in the Netherlands and organized by AGORA. It is expected to run until before Christmas, while AGORA is already planning to host a National Workshop presenting the project results on the **20th of January 2022**. You will be able to find more information about the workshop in the news section of our website.

We are all looking forward to it!

Questions? Feedback? Please feel free to get involved!
